COMMISSION IMPLEMENTING DECISION (EU) 2024/2662

of 14 October 2024

**establishing a standard EU Emergency Travel Document application form and amending
Implementing Decision (EU) 2022/2452**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive (EU) 2019/997 of 18 June 2019 establishing an EU Emergency Travel Document and repealing Decision 96/409/CFSP ⁽¹⁾, and in particular Article 4(9) and Article 9(1) thereof,

Whereas:

- (1) Directive (EU) 2019/997 lays down rules on the conditions and procedure for unrepresented citizens in third countries to obtain an EU Emergency Travel Document ('EU ETD') and establishes a uniform format for the document, consisting of a uniform EU ETD form and a uniform EU ETD sticker.
- (2) Commission Implementing Decision (EU) 2022/2452 ⁽²⁾ lays down additional technical specifications concerning the design, format and colours of the uniform EU ETD form and sticker, the requirements for the material and printing techniques of the uniform EU ETD form, and security features and requirements including enhanced anti-forgery, counterfeiting and falsification standards.
- (3) To facilitate the exchange of information on applications for the issuance of an EU ETD, a standard EU ETD application form should be established.
- (4) In accordance with Article 4(8) of Directive (EU) 2019/997, the recipient of an EU ETD is to be asked to return the EU ETD upon arrival at the final destination. Information on the obligation to return the EU ETD is, pursuant to Article 4(9) of that Directive, to be included in the standard EU ETD application form.
- (5) To provide recipients of EU ETDs with the information necessary to be able to return the document to the appropriate authority in line with the information provided on the standard EU ETD application form, it is necessary to lay down additional technical specifications relating to the issuing of the EU ETD. These specifications should provide that the Member State of nationality should inform the assisting Member State as to where the EU ETD is to be returned, information that should then be provided to the recipient of the EU ETD.
- (6) It is also necessary to revise and update certain technical standards prescribed by Implementing Decision (EU) 2022/2452. In Part I of the Annex to Implementing Decision (EU) 2022/2452, it should be clarified that any blank uniform EU ETD forms and stickers stolen or lost during the delivery process should be reported to Interpol's database on Stolen and Lost Travel Documents by the Member State procuring them to avoid gaps in reporting.
- (7) Rules on the filling in and affixing of uniform EU ETD stickers should be added as Part III of the Annex to Implementing Decision (EU) 2022/2452 to ensure that Member State authorities follow common standards when filling in EU ETDs, including their machine-readable zone.

⁽¹⁾ OJ L 163, 20.6.2019, p. 1, ELI: <http://data.europa.eu/eli/dir/2019/997/oj>.

⁽²⁾ Commission Implementing Decision (EU) 2022/2452 of 8 December 2022 laying down additional technical specifications for the EU Emergency Travel Document established by Council Directive (EU) 2019/997 (OJ L 320, 14.12.2022, p. 47, ELI: http://data.europa.eu/eli/dec_impl/2022/2452/oj).

- (8) Pursuant to Article 10(1) of Directive (EU) 2019/997, each Member State is to designate a body having responsibility for producing uniform EU ETD forms and stickers. The same body may be designated by several or all Member States. Currently, Member States have designated three different bodies. In order to avoid that EU ETDs produced by different bodies are assigned the same document number, it is necessary to ensure that numbering ranges are differentiated by reference to the different bodies designated by the Member States. In addition, a numbering range should be reserved for possible future use. Those rules should be added as Part IV of the Annex to Implementing Decision (EU) 2022/2452.
- (9) Implementing Decision (EU) 2022/2452 should therefore be amended accordingly.
- (10) The measures provided for in this Decision are in accordance with the opinion of the Committee established by Article 6 of Council Regulation (EC) No 1683/95 ⁽³⁾,

HAS ADOPTED THIS DECISION:

The rules on different bodies having responsibility for producing uniform EU ETD forms and stickers shall be as set out in Part IV of the Annex.’;
- (2) point 3.8 of Part I of the Annex to Implementing Decision (EU) 2022/2452 is replaced by the text in Annex II to this Decision;
- (3) the text in Annex III to this Decision is added as Part III of the Annex to Implementing Decision (EU) 2022/2452;

ANNEX II

3.8. DELIVERY ASPECTS

The delivery of EU ETDs must be regulated by the Member State issuing the contract together with the producer. As complete yet non-personalised EU ETDs are considered to be high-risk security items, the transport must be of the highest level possible.

A generic risk assessment must be carried out and documented for each type of transport and any additional security measures assessed to be necessary must be implemented (e.g. armoured vehicle, accompanying vehicle). These assessments must be reviewed whenever there is a change in the relevant circumstances.

All loading and unloading activities – including delivery to the receiving party – must be monitored under dual control, that is, involving two or more persons.

The serial numbers of the EU ETDs being transported must be provided to the Member State issuing the contract via electronic means prior to departure.

The status and position of vehicles carrying security printing products should be checked at regular intervals during transport. There must be at least two independent systems, which ensure effective communication with external partners in the event of any disruption to the transport.

Any irregularity (e.g. the failure of any party involved to meet these minimum transport requirements, an attack on the transport or a loss by any cause during the transport) must be reported to the producing company immediately.

There must be no access to the secure products from inside the driver's cab and the compartment in which the goods are transported must be made from metal and entirely enclosed (no curtain-sided vehicles) with access for loading and un-loading via a locked door. Keys to the locks must not be carried inside the vehicle.

Any contract for the delivery of blank EU ETD forms and stickers must provide that any theft or loss of blank uniform EU ETD forms and stickers during the delivery process is immediately reported to the Member State issuing the contract, including the serial numbers concerned. The Member States issuing the contract must report such theft or loss to Interpol's database on Stolen and Lost Travel Documents (SLTD), without prejudice to any reporting obligations under Article 38(2)(k) of Regulation (EU) 2018/1862 of the European Parliament and of the Council ⁽¹⁾.

⁽¹⁾ Regulation (EU) 2018/1862 of the European Parliament and of the Council of 28 November 2018 on the establishment, operation and use of the Schengen Information System (SIS) in the field of police cooperation and judicial cooperation in criminal matters, amending and repealing Council Decision 2007/533/JHA, and repealing Regulation (EC) No 1986/2006 of the European Parliament and of the Council and Commission Decision 2010/261/EU (OJ L 312, 7.12.2018, p. 56, ELI: <http://data.europa.eu/eli/reg/2018/1862/oj>).

ANNEX III

Part III**Filling in and affixing uniform EU Emergency Travel Document stickers****1. Filling in uniform EU Emergency Travel Document stickers**

The following entries shall be inserted in the uniform EU Emergency Travel Document (EU ETD) sticker:

1.1. “FOR ONE JOURNEY TO/POUR UN VOYAGE VERS” Section:

This Section indicates the destination country for which the EU ETD is issued.

This Section shall be completed by using the short name in English as set out in Section 7.1.1. and Annex A5 of the Interinstitutional Style Guide published by the Publications Office of the European Union.

The issuing Member State may also indicate the destination country in another official language(s). Where different languages are used, they shall be separated by an oblique (/) (example: Italy/Italie).

1.2. “VIA/VIA” Section:

This Section may indicate any transit country between the departure and destination country, reflecting the planned route.

This Section shall be completed by using the three-letter codes as set out in ICAO Document 9303 on machine-readable travel documents.

Where multiple transit countries are indicated, they shall be separated using a horizontal dash (example: ESP-AUT). No more than five transit countries shall be indicated.

1.3. “NUMBER OF THE EU ETD FORM/Numéro DU FORMULAIRE TVP UE” Section:

This Section shall be completed by filling in the number of the uniform EU ETD form to which the uniform EU ETD sticker will be affixed.

1.4. “ISSUING STATE/ÉTAT DE DÉLIVRANCE” Section:

This Section indicates the Member State issuing the EU ETD.

This Section shall be completed by using the three-letter code as set out in ICAO Document 9303 on machine-readable travel documents.

1.5. “ISSUED IN/DÉLIVRÉ À” Section:

This Section indicates the location of the issuing authority.

The location shall be indicated in English or French.

The issuing Member State may, in accordance with national practice, include the name or abbreviation of the issuing authority.

1.6. “DATE OF ISSUE/Date de délivrance” Section:

This Section indicates the date of issuance of the EU ETD.

Dates shall be written as follows:

- the day using two digits, the first of which is a zero if the day in question is a single digit;
- blank space;
- the month using two digits, the first of which is a zero if the month in question is a single digit;

- blank space;
- the year using four digits.

For example: 20 01 2018 = 20 January 2018.

1.7. “DATE OF EXPIRY/date d’expiration” Section:

This Section indicates the date of expiry of the EU ETD.

Dates shall be written as defined in point 1.6 of this Part of the Annex.

Pursuant to Article 6 of Directive (EU) 2019/997, an EU ETD is to be valid for the period required for completion of the journey for which it is issued. In calculating that period, allowance is to be made for necessary overnight stops and for making travel connections. The period of validity is to include an additional ‘period of grace’ of two days. As provided for in Article 6 of Directive (EU) 2019/997, save in exceptional circumstances, the validity of an EU ETD is not to exceed 15 calendar days.

1.8. “SURNAME, GIVEN NAME/NOM, PRÉNOM” Section:

This Section indicates the recipient’s surname and given name(s), in that order, and separated by a single comma (,).

This Section shall be completed by using the conventions for writing names set out in ICAO Document 9303 on machine-readable travel documents.

A second line may be used to accommodate long names. Any such line shall be indented in a way so as to avoid interference with the diffractive optically variable image device, the space reserved for the possible addition of a common 2D barcode, or the machine-readable zone.

If the number of characters of the surname and given name exceeds the number of spaces available, the excess characters shall be replaced by a dot (,).

1.9. “NATIONALITY/NATIONALITÉ” Section:

This Section shall be completed in accordance with ICAO Document 9303 on machine-readable travel documents, part 6.

1.12. “REMARKS/Observations” Section:

This Section shall be used by the issuing authority to indicate any further necessary information, for example the type and number of the document replaced.

If this information is available, the document replaced shall be indicated using the two-letter document code as set out in ICAO Document 9303 on machine-readable travel documents followed by the document number (e.g. PP123456789).

If the number of characters of the surname and given name exceeded the number of spaces available in the Section “SURNAME, GIVEN NAME/NOM, PRÉNOM”, the excess characters shall be indicated after a dot (,).

If the EU ETD is issued to a minor, this Section may also be used to indicate the name and relationship of the adult accompanying the minor, for example in the following format:

‘Accompanied by [surname, given name] ([indicate relationship, e.g. ‘mother’, ‘father’, etc.])’, such as ‘Accompanied by Eriksson, Anna Maria (mother)’.

The information shall be entered in either English or French.

1.13. Type size

The entries of the visual inspection zone should be filled in using a type size of at least 1,8 mm (when measuring the letter 'E'). They shall not be printed with a type size of less than 1,6 mm.

1.14. Section for the facial image:

The EU ETD holder's photograph, in colour, shall be integrated in the space reserved for that purpose on the EU ETD sticker in accordance with ICAO Document 9303 on machine-readable travel documents, part 6, and the technical report on portrait quality.

For the quality of the portrait, the technical report on portrait quality (Reference Facial Images for MRTD) version 1.0 of April 2018 ⁽¹⁾ applies.

The uniform EU ETD sticker shall contain the relevant machine-readable information in line with ICAO Document 9303 on machine-readable travel documents, part 6, and shall comply with the specifications in ICAO Document 9303 on machine-readable travel documents, part 3.
