Travelling with animals

You can take your pet with you on any part of our route network. It will travel safely and in comfort, either in the cabin or in the hold. Book your pet's carriage in advance and make sure you have all the travel documents required.

[General provisions](#) [Extended regulations](#) [Assistance dogs](#)

Travel documents and regulations

There are various legal regulations for travelling by air with animals depending on your destination. So book your pet's carriage in advance and present the original versions of your pet's documents. These include the import, export and transit papers and its health and vaccination certificates.

The owner must pay for the return flights if an animal is not permitted to enter a country because it has not had the required vaccinations. Our Service Centre will be pleased to help you with bookings and answer any questions.

Frequently asked questions about traveling with pets

What types of pets are allowed on board?

Cats, dogs and small songbirds (parakeets, canaries) are the only types of pets permitted in the aircraft hold. These animals can also be transported in the aircraft cargo hold.

What is the pet carriage fee?

Before traveling with your pet, you can calculate the fee [here](#).

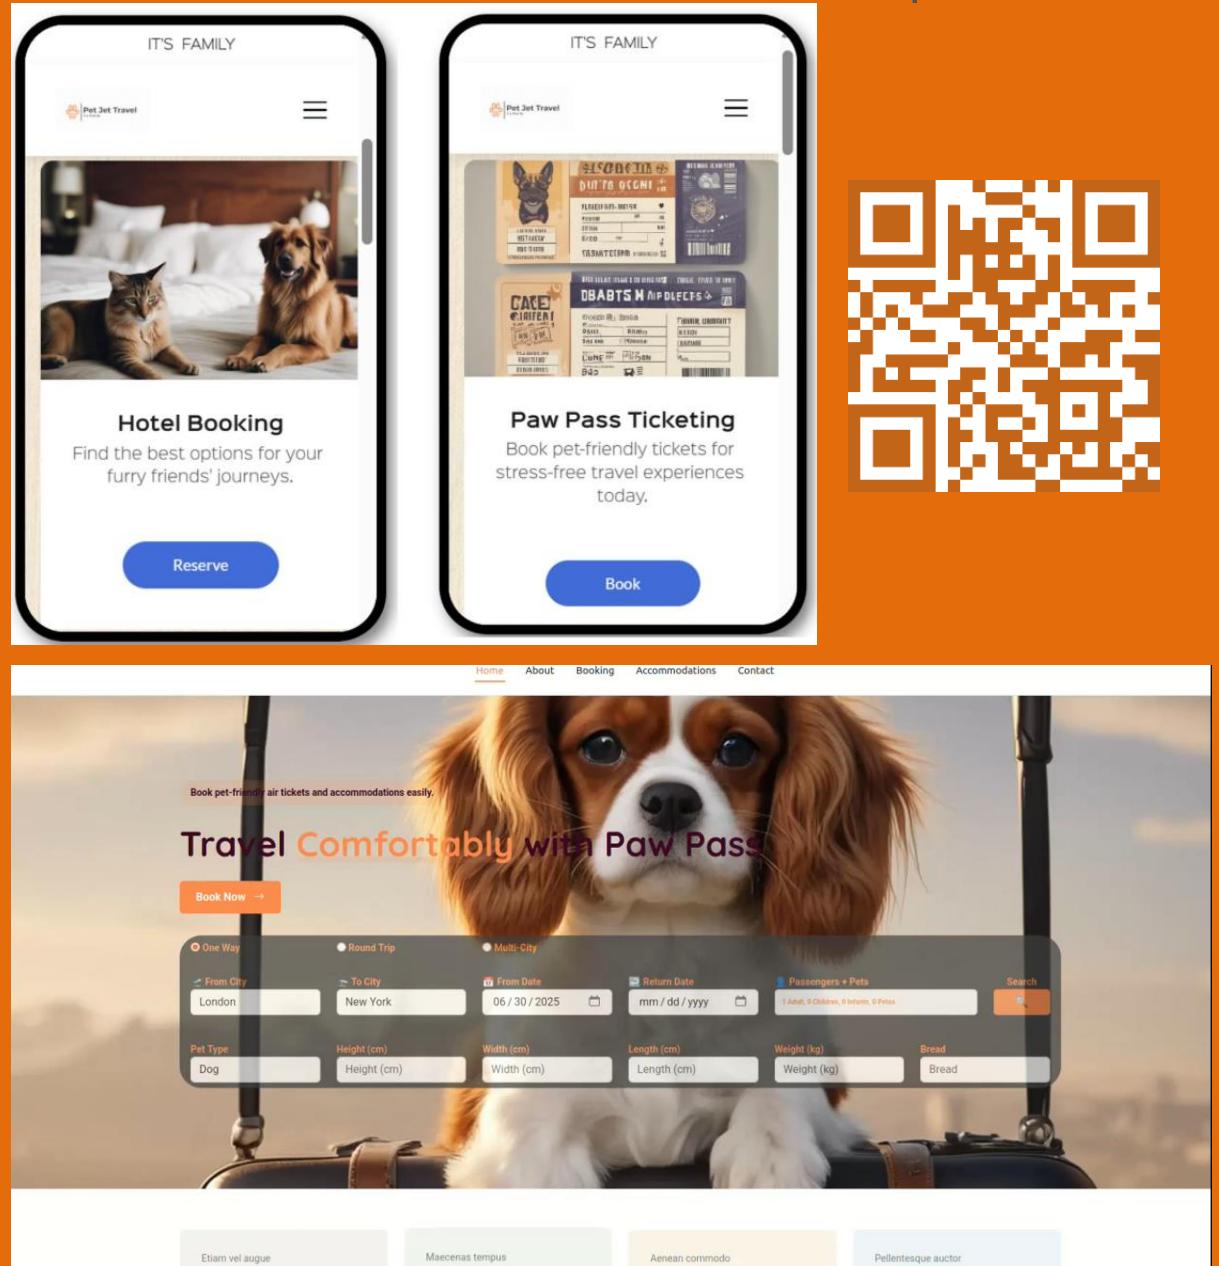

Are there weight or size limits for my pet?

Pets traveling in the aircraft cabin cannot exceed a total of 8 kg, including their carrier. The carrier dimensions must be no more than 23 cm in height, 30 cm in width and 40 cm in length. For pets traveling in the aircraft hold, carriers/cages cannot exceed 75 cm in height, 75 cm in width and 125 cm in length. The total weight of the carrier and the pet together cannot exceed 50 kg.

Paw Pass Digital Pet ID +
Ticketing + Hotel Booking

The image displays the Pet Jet Travel mobile application and website. The top right corner features the Pet Jet Travel logo with the tagline 'It's Family'. Below the logo are two mobile phone screenshots. The left phone shows a 'Hotel Booking' screen with a photo of a cat and a dog on a bed, and a 'Reserve' button. The right phone shows a 'Paw Pass Ticketing' screen with a photo of a pet travel document and a 'Book' button. To the right of the phones is a large QR code. Below the phones is a screenshot of the Pet Jet Travel website, which features a large image of a dog, a 'Book Now' button, and a search form for travel details.

Risk & Liability Management

Unlock New Ancillary Revenue with Real Time Pet Travel Offers via NDC

Lost Revenue & Manual Processes in Pet Travel

PETC & AVIH bookings handled offline after ticket purchase.

Limited real-time availability to travel sellers.

Missed upsell opportunities.

Manual confirmation = cost + denial risk.

Expose PETC & AVIH as Real-Time NDC Ancillaries

Publish pet travel offers via NDC API.

Include rules, pricing, inventory in shopping response.

Enable instant booking & payment.

Allow custom ancillary bundles.

Why Airlines Win

Ancillary Revenue Growth
Sell high-value pet ancillaries.

Better Load Management
Control pet capacity in real time.

Customer Experience
Transparent & instant confirmation.

Operational Efficiency
Reduced manual handling.

Capture the fast-growing pet travel segment automate, upsell, and delight customers with NDC-powered real-time offers.
